

Every day of April, Peter Cottontail will be hiding somewhere in the public areas of Jenni-Lynn. Find him in his new location every day, and let Karissa or Jaime know where you found him. Those who found Peter Cottontail the most times during the month will receive a small prize at the end of April.

Peter Cottontail will look like this:

Winners of February's Finding Cupid:
Ms. Jane Fleet,
Ms. Thelma Hicklin,
& Ms. Linda Jacoby!

**Let's give a big warm
welcome to our new
residents:**

**Frances Sargent,
Shirley Jennings,
& Edwinda Doyon!**

**We are so happy to have you as
part of our family at Jenni-Lynn!**

April Birthdays

In astrology, those born between April 1–20 are Pisces. Fish are compassionate, gentle, intuitive, and artistic. Known for their wisdom, Pisces are not judgmental and are very forgiving. They never hesitate to put others' needs before their own. Those born between April 21–31 are Rams of Aries. As the first sign of the zodiac, Aries are energetic and assertive initiators. With bravery, zeal, and speed, they jump head first into life, confident that they can navigate any challenges.

Residents:

April 8th – Judy Spurlock

Employees:

April 10th – Alexis Patrick

Happy Birthday! 🎉

A Note from Karissa

As you all may know, my last day at Jenni-Lynn is April 7th. I will still be living right around the corner, so expect visits from me and Charlie regularly! I hope you all know the special home you have made in my heart. I am so beyond grateful for all of the memories that we've made together through my time at Jenni-Lynn – I will never forget all of our laughs and good times. Thank you for all of your support, for teaching me something new every day, for attending all of my silly activities, and for becoming my second family. See you soon!

Easy Being Green

For 47 years, April 22 has been celebrated as Earth Day around the globe. Today, Earth Day organizers are asking citizens around the world to do a "billion acts of green." Unsure what constitutes an act of green? Earth Day organizers offer some easy suggestions.

A step that will relieve both the earth and your mailbox is to end junk mail. Over 100 million trees are cut down every year to produce junk mail, producing four million tons of advertisements, catalogs, and solicitations thrown into the trash. Often, a telephone call to those sending junk mail can take you off their mailing list.

Many appreciate the value of recycling paper, plastic, and cans, but few understand the value of recycling old computer parts and obsolete technology. Technology develops so fast that it is no wonder many people toss their cell phones and laptops into the garbage, accounting for 50 million tons of electronic waste each year. Many of these electronic parts contain lead, mercury, cadmium, and other harmful chemicals that leach into our soil and water. Luckily, most local governments have electronic recycling stations ready to accept old and obsolete electronics.

One of the biggest threats to the planet is plastic: bags, bottles, and packaging take 500 to 1,000 years to decompose. Using less plastic, especially plastic grocery bags, is a great way to act green.

Changing old habits is hard, but current innovations are helping clean up some wasteful habits. "Green" buildings are being built that produce as much energy as they consume. New batteries can store energy for homes and businesses in a way that reduces pollution. Energy is being harnessed from solar panels, wind turbines, and even ocean waves. But if you'd still like to help Mother Earth the old-fashioned way, a great and enduring act of green is to simply plant a tree on April 28, Arbor Day.

Join us on Tuesday, April 18th, at 2:00 in the Dining Room for "Green Trivia". April 18th is also national look alike day, so to get in the spirit, let's all wear something blue!
