

Keith and Staff,

December 13, 2018

We really cannot express our gratitude to the St Ives Memory Care Staff. You never know what happens behind the scenes when your parent is in the care of others and moved into a memory care facility. Over the past 2 years my family and I knew the staff was great but we really didn't know how truly amazing and loving they were until the last stages of Dorothea's life. We realized we were the lucky ones to experience the kind and patient hearts of this staff. Spending days and hours we got the opportunity to see the love and care she received on a daily basis and the friendships she made. The hugs, conversations and warmth they expressed to her during this time was as if she had an entire family at St. Ives. It was beyond touching during this difficult time and we would highly recommend this facility. Thank you to all of the staff for your support during this time and taking such good care of our girl.

Deborah, Dan, Leslie Falzone and Amy Stacy,

Dorothea Slisz's Family
