

Just wanted to let you know how much I appreciate the guidance, encouragement and care that Michael and Cynethia have given us during Mom's transition from: General resident care....

to: Memory care...

Especially from Thanksgiving day to Jan 8th when she was admitted to the Behavioral Center at Self Memorial. She was really fighting with her illness during that time.

The psychology exam at Self was enlightening and the remaining days equaling 3 weeks was very much needed. Dr. Maceda did an excellent job there and Michael and Cynethia were so calm, caring and accurate as Mom transitioned to memory care.

Your memory care and everything else at Emerald Gardens is managed well by Michael.

Thank you Greg and Emerald Gardens

Steve Lankford and Family
